Shades Of Pink Earrings - JCL062

For your sensitive ears ... Shades Of Pink Earrings handcrafted by Christie Leighton Jewelry. Created using four 4 millimeter Swarovski® crystal cube beads in shades of pink hanging from a 6 millimeter Sterling silver ring. The earring is mounted on a French hook earwire. The earwire itself is made from a base of surgical grade stainless steel and then polished to a mirror shine. Each pair comes with a set of clear plastic earwire stoppers. The stoppers give you confidence of a secure fit so you can wear them without the fear of them falling out. The earring measures approximately 25mm (1 inch) from the top of the earwire.

Christie brings to Sensitively Yours a wide variety of handmade artistic designs that have been very much appreciated by our customers. All of her works are designed to display a look of class and charm while also being easy to wear. Most of the styles Christie displays at Sensitively Yours website are from the very same collections she markets in her local craft shows in and around Fort Collins, Colorado. Found nowhere else on the Internet, the Christie Leighton Jewelry is exclusively offered at our site. She creates the most elegant styles that are several notches above most of the hypoallergenic earrings.
